Lead Releases LeadTools ePrint Version IV

By Desktop Pipeline News

[Desktop Pipeline](#)

Lead Technologies, Inc. released version IV of its award-winning ePrint printer driver/file converter. LeadTools ePrint installs and registers as a printer driver, and allows you to convert your images or documents from any Windows application to over 140 file types including searchable PDF, DOC, TIFF, JPEG, etc., as easy as printing the file. New features have been added to ePrint IV to make it one of the most powerful image converters on the market.

New ePrint IV features include PDF options such as PDF font embedding, PDF bookmarks, PDF watermarks, compression options, PDF security options, and different output versions. New output file formats include Paint Shop Pro (PSP), TIFF-FX (Internet Fax), Kodak Cineon (CIN), Flexible Image Transport System (FITS).

[LeadTools ePrint](#) is available for \$99.
